## RIPSTICK

### What's Included:

- 1 x RipTide RipStick Battery
- 1 x Type-C Charging Cable
- 1 x User Manual

### Specifications:

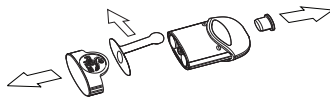

Dimensions: 103.5 mm x 23.1 mm x 10.8 mm  
Weight: 25.11 g  
Pod Capacity: 1.4 ml  
Coil Configuration: 1.5 ohms SS 316L  
Battery Capacity: Built-in 500 mAh  
Power Output: 10W Constant Power  
Max Charging Current: DC 5V/1000 mA

### See Precaution Statement

### Setup:

1. Remove the mouthpiece plug and silicone cap to prepare a new pod for use.

**RipStick Pods are available separately.**

2. Insert the prepared pod into the charged RipStick battery. Device is now ready for use.

3. The RipTide RipStick is initially charged to 30%. Recommend charging to 100% before use.

### Operation:

1. To use the RipStick, simply inhale on the mouthpiece. An LED will light to indicate that the RipStick is in use and functioning normally.

2. To charge the RipStick, attach it to the included charging cable. The LED will turn on while the RipStick is charging. Once charging is complete, the LED will turn off.

3. Replace empty RipStick Pods as required. Follow setup instructions prior to using a new Pod.

### Safety Features:

1. Overuse Protection: The RipStick's LED will flash ten times and suspend function if it detects a draw lasting longer than 8 seconds.

2. Short-Circuit Protection: In the event that an atomizer short is detected, the RipStick's red LED will flash three times and suspend function until the issue is resolved.

3. Low-Voltage Protection: If the Ripstick's battery level is depleted below the operational threshold, the LED will flash 15 times and suspend function until the battery has been recharged.

4. Over-Charging Protection: The RipStick will automatically suspend charging once the battery is fully charged.

### Precautions:

1. SAFETY FIRST! Always follow recommended battery safety guidelines when using the RipStick or any other battery powered devices.

2. Make sure that you read and understand the instructions for your RipStick device and its Pods prior to use.

3. Always charge your RipStick with the included Type-C charging cable.

4. Avoid wet conditions when charging or using your RipStick. Only use a UL listed charging block with output of 5V/1000mA or less.

5. Keep your RipStick away from extreme temperatures and open flame.

6. The RipStick is for use only by adults in good health and of legal age.

7. If you experience any adverse reactions while using your RipStick, immediately suspend use and seek the attention of a medical professional.

8. The RipStick is not intended as a smoking cessation device.

9. Always verify that your RipStick is functioning normally and free from damage or leaking prior to use.

10. We recommend that you use only genuine tobacco-free RipStick pods for your device. The RipStick is not intended to be used with tobacco or other pod systems.

### LED Indicators:

1. Pod Loaded/Unloaded indicator:  
Depend on device capacity status:
  - a.  $\geq 50$ , Blue light flashes twice;
  - b. 25% to 50%, White light flashes twice;
  - c.  $\leq 25$ , Red light flashes twice.
2. Charging indicator:
  - a.  $\geq 50$ , Blue light flash on and off slowly;
  - b. 25% to 50%, White light flash on and off slowly;
  - c.  $\leq 25$ , Red light flash on and off slowly.

### If RipStick stops working:

- \* Check that your battery is fully charged.
- \* If you notice a deterioration in the taste or quality of the vapour before this point you should also replace your RipStick pod.
- \* Check the liquid level in your RipStick pod and replace the pod if the level is low.

### Disposal and recycling of RipTide Products

Waste Electrical and Electronic Equipment Regulations (the WEEE Regulations), electrical and electronic goods and batteries should not be disposed of as part of regular household waste, but should be separately collected for recovery and recycling.

**THIS PRODUCT CONTAINS NICOTINE WHICH IS A HIGHLY ADDICTIVE SUBSTANCE, NOT RECOMMENDED FOR NON-SMOKERS AND PERSONS UNDER THE AGE OF 18.**
